DIAMOND SPECTACLES.

These Spectacles are manufactured from "MINUTE CRYSTAL PEBBLES" melted together, and are called DIAMOND on account of their hardness and brilliancy. It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.
Manufactured by The Spencer Optical Manufacturing Company, New York. For sale by responsible agents in every city in the Union. H. A. HRATH & CO., Jewelers and Opticians, are Sole Agents for Newport, R. I. From whom they can only be obtained. No peddlers employed. Do not buy any unless you see the trade mark apr

TUESDAY, JUNE 3, 1873.

The late Mr. Babbage, of calculating-machine fame, had a singular faculty of suggesting avenues to knowledge. We are told by one who knew him well that it seemed possible to him to obtain an exact record of the succession of hot and cold years for long periods in by-gone ages. His plan was as follows: Among the stumps of trees in some ancient forests, he proposed to select one in which both the number and the size of the rings that have been annually produced were clearly marked. He would write down the succession of hot and cool summers so marked in this tree, assuming that the larger the ring in each case, the hotter has been the summer. He then proposed to examine other trees of about the same date, until he found some which recorded a series of hot and cold seasons, exactly similar to that which he had already noted down, and until the series extended far enough for him to be sure that the resemblance was not accidental, but that he had before him a natural register of the same seasons which had been recorded in the first tree. As some of these trees would be somewhat older than the first tree, while others would have survived it, he considered that it would be possible, so to say, to piece out the information obtained from one tree by means of the others; and that, after examining a great number of trees, his record of warm and cold seasons might be extended at both ends almost indefinitely. GET YOUR PRINTING done at the News Office.

Newport Daily News.

TUESDAY, JUNE 3, 1873.

Our friends will confer a favor, by sending us facts of any matter of local interest which may come to their knowledge.

Correspondence concerning matters of public interest will be inserted, but we do not hold ourselves responsible for opinions expressed in such communications. All manuscript must be accompanied by the name and address of the writer.

The maudlin sentimentalism displayed toward convicted criminals at the present time is absolutely disgusting. Humanity and reformatory measures we approve of, but we have no sympathy with the apologetic manner in which it is now deemed necessary to treat ruffians convicted of murder, robbery, arson, rape and forgery. To beg a prisoner's pardon when gently asking him to be kind enough to please step inside that stone hotel with iron window sashes till we can see the governor and get a pardon issued is a piece of mawkishness disgusting to every healthy mind. It is stated that in the state of Michig an jail birds are not required to wear striped plumage, because it hurts their feelings. We are at a loss to know what good sound reason can be adduced for not obliging criminals to wear a dress that will insure their detection if they escape. It is probable that they find the gratings in the windows embarrassing, why not have the offending iron rods taken out ?

OUR CITY.

The addresses of ex-Mayor Atkinson, and Mayor Slocum which we published yesterday are both very good reading. Our new mayor has expressed plainly his views of the changes and improvements necessary in conducting the city's affairs, and we have no doubt he will carry out the wholesome policy he has indicated to the satisfaction of all whose satisfaction is worth trying to win. We notice with pleasure his reference to the police force, and we are confident that he will make it as effective as is possible for a force of its size, and we hope he will secure its enlargement.

The address of Mayor Atkinson commands attentive reading, because it is the result of five years experience in the executive office of this city. We wish to call particular attention to Mr. Atkinson's allusion to the question of a water supply. It is not suitable at all that a city of the size and character of Newport should depend on private wells and cisterns for its water supply. This supply is not satisfactory in quantity or quality, and the time is coming shortly, if it is not now here, when a general water supply, abundant enough for any emergency of fire, good enough for drinking purposes at all seasons, and conveniently distributed, will be the demand of the city.

The matter of a fire alarm telegraph has already been brought prominently before the public, by the action of the firemen's convention recently, the frequency of false alarms, and by comments in these columns. Mr. Atkinson says that the saving to the city would pay for the telegraph in five years. We commend this estimate, by one whose word carries with it great weight, to the careful attention of the new city council, with the earnest hope that some favorable action may be taken in the matter before many months.

But the best part of the ex-mayor's address is that which refers to the late unfortunate changes in the city charter. All political power originates with the people, but it is always productive of trouble when the people undertakes to do its own governing directly. The people is too large and unwieldy a mass, and contains too large a proportion of floating voters to undertake to manage the details of both making and executing its own desires. Educational and judiciary officers should never be elected by the people. While they are it will never be possible to obtain for such offices men of the ability and personal independence that are needed.

It may be perfectly true that we have lost nothing this time in the change. We have lost an excellent school superintendent and an excellent high school teacher. We have several excellent gentlemen to fill the vacancies, but it is nevertheless true that our school system is seriously damaged by making the superintendent an officer directly responsible to the people. It will be impossible to get a really able man, if we should ever wish it, to come here from abroad and take that place, if his retention of it were to depend on his personal popularity with the people. He would know that every father of an unruly boy punished by him and every father of a dunce to whom he could not furnish brains would be certain to vote against him.

Mayor Atkinson retires from the office he has so worthily filled for five years, with the hearty good wishes of all good citizens, and we assure Mayor Slocum that he will have our full cooperation and sympathy in all the efforts he will make to render our city more healthy, more wealthy or more wise.

The American Grocer, published in New York, gives the following opinion on the future of sugar: Sugars will be abundant and cheap. The crops in all producing counties are very large, and as the best crop of Europe will this year yield an estimated amount of 1,100,000 tons, an increase of 220,000 tons over the yield of last year, this will go far towards supplying the wants of Europe and lessen the demand from that quarter for cane sugars by an equal amount. The consequence will be that a greater amount of raw sugar than ever before will seek the market in this country, and, consequently, keep prices low during the summer months, not withstanding an increased consumption.

Jean Pierre Blanchard, a distinguished French æronaut, ascended from Philadelphia in January, 1793, and afterward visited other cities. This was only ten years after the first ascension had been made with a hydrogen balloon in France, and only eleven years after the brothers Montgolfier had made their earliest experiments with a fire or hot air balloon, at Avignon. The Philadelphia ascension naturally caused much interest, and General Washington was one of a great crowd of spectators.—Two other Frenchmen, M. Gillet and M. Robertson, subsequently visited America and made ascensions in various cities, and it was not till 1833 that the late Charles F. Durant made his first ascension in New York.

Mr. Durant was the first American, probably, who ever made an ascension in this country, and unquestionably the first to engage in the business. The first American to make an ascension, however, was Dr. Jeffries, a Bostonian, (father of the present Dr. Jeffries.) who accompanied Blanchard on an aerial voyage from Dover, England, across the British Channel, January 7, 1785. Mr. Durant, by-the by, made his first ascent in Boston, July 31, 1834, and it was on that occasion that he made his famous descent in the ocean, some ten miles southeast of Nahant. This was the tenth ascension he had ever made.

The War Department has decided to dismantle and to abandon Fort Phœnix, on the eastern shore of the harbor of New Bedford, Mass. The solitary sergeant, John Wetzel has orders to report to head-quarters of the Department of the East, at New York, as soon as the ordnance, etc., is removed. The romantic grounds will probably be left for the public uses of the town of Fairhaven until such time in the great future as the national government finds it necessary to reoccupy the same.

Ambrose W. Landre and wife and William B. Hatheway, appeared in the Fall River Police Court, Saturday morning, on the charge to extort money from Robert Tuckerman. Strenuous efforts were made by their counsel to secure their discharge. He stated that complete restitution had been made, and argued that the scandalous developments likely to be made by an examination would be unfit for the public ear. It also appeared from his remarks that the district attorney had expressed an intention to bring the case before the grand jury in case it was dismissed in the lower court. Judge Borden utterly refused to discharge the respondents, on the grounds that his duty to the community required the fullest investigation, and ordered the investigation to proceed. The respondents waived an examination and were adjudged probably guilty, and held in $5000 each for their appearance at the June term of the Superior Court.

The finest and most popular of the Staten Island hotels, the Pavilion, opened on Monday under the management of Mr. James Carroll. Many improvements have been effected since last year. The house is in capital order, and the indications are that it will have an excellent patronage all summer.

The Great Summer Invigorant.

The human skin is as full of holes as a fine sieve. Through these millions of orifices a considerable portion of the waste matter of the system exudes. But in warm summer weather, when the flow of perspiration is excessively copious, something besides the exhausted material of the body is evaporated. Nutritive elements of the blood required for the sustenance and support of the living frame, pass through the pores, and the result is a loss of strength and vigor. It would be dangerous to check the leakage, for every pore is at once a ventilation and an escape pipe, and constipation of the skin is as detrimental to health as constipation of the bowels. The wisest course is to reinforce and vitalize the languid system with Hostetter's Stomach Bitters, and thus enable it to bear without peril or inconvenience the extraordinary drain. The debility lassitude and depression of spirits so general in hot weather, and which are too often the precursors of bilious attacks and painful affections of the bowels and the nerves, quickly disappear under the invigorating and regulating operation of this unequaled vegetable stimulant and alterative. To the feeble it is an article of prime necessity at all seasons, and as even the robust are apt to wilt and languish under the devitalizing influence of a fervid temperature, the Bitters can be conscientiously recommended as a healthful summer tonic for all. my28

CONSUMPTION CAN BE CURED.

SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,

Are the only medicines that will cure Pulmonary Consumption.

Sometimes medicines that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood; hemorrhage follows, and in fact, clogging the action of the ordinary organs that caused the cough.

Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many are now complaining with a dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and other times drowsy; the food that is taken lies heavily on the stomach, accompanied by acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly stopped, the lungs, liver and stomach clog, and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result.

Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.

Schenck's Seaweed Tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system, and creates a healthy circulation of the blood. When the bowels are costive, skin sallow, and the patient is of a billious habit, Schenck's Mandrake Pills are required.

These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Penn., and for sale by GEO. C. GOODWIN & CO., 38 Hanover street, Boston, and John F. Henry, 8 College place, New York, Wholesale Agents.

For sale by Druggists generally.

It is a blood maker and will give you a rich flow of it through the system. Servant girls will find it valuable to gain strength. A physician who has used it for the last two years says: "It is the best Tonic in the market." Another says: "Its effect upon sick and weakly females is marvelous." Another says: "Tell Mr. Kingsley I am very much pleased with his Iron Tonic." Another says: "I have used it during the past two years, and consider it the best Tonic given in cases of general debility."

GLASTER POWDERS,
For Horses, Cattle, Sheep and Swine.

THESE Powders have been used for three years with great success, and the undersigned would call the attention of the public to the fact that there is nothing that excels them for the cure of worms, kidney complaint, loss of appetite, coughs, colds, and leaves the system, in all cases, in a healthy condition. It is well to give a powder occasionally to animals that do not appear to be unwell, as it prevents the accumulation of worms and prevents internal diseases. Please see circulars for all particulars. TUESDAY, JUNE 3, 1873.

GENERAL NEWS.

FROM WASHINGTON.

WASHINGTON, D. C., June 2.—Mackenzie was selected by the President from a personal knowledge of his fitness for the work he has begun, and ordered from another post to duty along the border. His written orders directed him to chastise marauders from Mexican territory. His verbal instructions covered any foray into Mexico that might be necessary. The President has fully made up his mind that if Mexico cannot maintain order along her borders and prevent incursions into the United States, she shall not become a house of refuge for robbers of our citizens, and that he will henceforth use all needed power to protect the lives and property of citizens of the United States, without regard to the boundary lines of Mexico.

The appointment of Mr. Bingham as minister to Japan is in accordance with a promise made by the President some time before the adjournment of Congress. The announcement has been delayed by complications attending the resignation of Minister De Long.

A design for the new silver trade dollar has been agreed upon, and work upon the dies will begin at once. The first lot of the new coin will be ready in two weeks. The first million will go to New York, as the first deposit was made for them from that city. The whole sum is to be sent at once by private parties to China and Japan.

NEW YORK CITY.

NEW YORK, June 2—The announcement that the government will sell seven millions of gold during the current month took Wall street by surprise this morning, and has made the premium lower and the market dull all day. Interest centres more strongly than ever on Jay Gould's plan of operations, but it is not likely that anything decisive will be developed until his return from Chicago. Had his brokers begun to sell this morning it would have undoubtedly caused a panic in the market, but they made no movement in that direction, and the total decline of the day has not been over 1-2 per cent. from Saturday's high figures.

BEECHER.

Rev. Henr. Ward Beecher today issues the following co. to a Brooklyn paper:—

Dear Sir:—I have maintained silence respecting the slanders which have for some time past followed me. I should not speak now but for the sake of relieving another of unjust imputation. The document which was recently published, bearing my name with others, was published without consultation either with me or with Mr. Tilton, nor with any authorization from us. If that document should lead the public to regard Mr. Tilton as the author of the calumnies to which it alludes it will do him great injustice. I am unwilling that he should even seem to be responsible for injurious statements whose force was derived wholly from others.

(Signed) HENRY WARD BEECHER.

THE VIENNA SCANDAL.

Commissioner Van Buren's second letter of self-defence, published this morning, appears to have considerably strengthened his case before the public. The Post this evening says that the removal of the whole commission was, under the circumstances, an extreme measure, and that the government having made the original blunder in the appointment of General Van Buren had better have tried to get along with it without creating scandal, unless they had some better reason for the sweeping change than has at yet appeared. If those better reasons do exist the public would like to know what they are, and in justice to Mr. Jay as well as to Mr. Van Buren the government should state its case.

THE MODOCS.

A Washington despatch says that the Cabinet will decide tomorrow what to do with the captured Modocs, and that Secretary Delano will oppose turning them over to the civil authorities, as he regards the punishment of this tribe absolutely essential to the preservation of peace with other tribes of hostile Indians.

TWEEDIANA.

Judge Davis has postponed Tweed's trial till October, on the strength of physicians' affidavits that to go on with it now would endanger John Graham's life. Judge Benedict has overruled Mayor Hall's demurrer to the Dunning indictment, which raised the point that the United States sub-treasury act was repealed in 1870, and that the sub-treasury has now no legal existence.

FOREIGN INTELLIGENCE.

MADRID, June 3.—Information has just been received by the Government of a decisive gain by Gen. Nouvillas, commander of the government troops in the North, over the Carlist forces in Biscay.

Gen. Nouvillas has surprised and surrounded the Carlist army, and its surrender is expected. The news creates much excitement in the capital.

MISCELLANEOUS.

APPLEGATE'S HOUSE, CAL., June 1, P. M. via San Francisco, June 2.—This morning the troops at camp in Langell's Valley were divided into several parties and sent out in scouts after the fleeing Modocs. Just as the scouting parties left, the Modoc captives, with the exception of Bogus Charley, Hooker Jim, Steamboat Frank and Shack Nasty Jim, were sent to this ranche in charge of Lieutenant Taylor of the fourth artillery and a small detachment of men.

PERSONAL APPEARANCE OF CAPTAIN JACK.

Captain Jack is about 40 years old. He is five feet eight inches high, and is compactly built. He has a large and well-formed face, full of individuality. Although dressed in old clothes, he looks every inch a chief. The Modocs are grouped in a field near the house, and are surrounded by a guard. Spectators peer into Captain Jack's face with eager interest, but he heeds them not. He is still as a statue.

Hotel for Sale.

THAT VERY DESIRABLE PROPERTY at the Stone Bridge, in Tiverton, R. I., popularly known as the Lawton House, is offered for sale on easy terms of payment. The property consists of about seven acres of excellent land; the Hotel, with all the furniture therein, which is in good condition, and very abundant for the business; all the outbuildings, among which are two large stables in good order, one of them being new within three years; carriage houses; a large laundry, nearly new, with every convenience; a cistern holding 400 barrels of water; a bowling building with two good alleys; an ice house filled with about 250 tons of ice,—and a gas house with a superior automatic gas machine that furnishes gas for the house, billiard room, alleys, &c. Over the carriage house is a fine hard-finished billiard room, with two of Cook's tables.

This property is located just one mile from the Old Colony Depot, and in one of the most delightful places of New England; is about 12 miles from Newport, and 6 miles from the flourishing and rapidly growing city of Fall River. The facilities for boating and fishing are excellent. The property can be purchased reasonable, and at a bargain.

For any information wanted inquire of A. T. LAWTON, the owner, 16 Bull Street, Newport, R. I.

N. B. Until the property is sold, the Hotel will be carried on as a first-class one, under the same management as heretofore. A. T. LAWTON,

Tiverton, R. I., April 26th, 1873. my31

ASSOCIATION.

Sing me that song no more!
My lost life I deplore;
I float along the shore
Of the far lands of memory.
The wild and sad refrain
Pulses with bygone pain;
My tears fall down like rain,
My struggles are all vain,
I beat along the shores of memory.

Thy wind harp's wailing spell,
With tides that rose and fell,
Has borne me on its swell
To the far lands of memory.
My eyes with tears are wet,
My heart doth idly fret,
I vex with vain regret;
Ah, might I once forget
The purple light on shores of memory!

For I can never land
Upon their golden strand,
Nor step upon the sand
Of the far lands of memory.
For mists and fogs are met,
And ragged rocks beset
Each harbor of regret,
And sails are never set
Which find the silvery shores of memory.
—By Emily F. Ford, in June Galaxy.

AMERICAN AND FOREIGN PATENT

R H EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State St., opp. Kilby St. Boston

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

Is the most powerful cleanser, strengthener and remover of Gladular Obstructions known to Materia Medica.

It is specially adapted to constitutions "worn down" and debilitated by the warm weather of Spring and Summer, when the blood is not in active circulation, consequently gathering impurities from sluggishness and imperfect action of the secretive organs, and is manifested by Tumors, Eruptions, Blotches, Boils, Pustules, Scrofula, &c., &c.

When weary and languid from overwork, and dullness, drowsiness and inertia take the place of energy and vigor, the system needs a Tonic to build it up and help the Vital Forces to regain their recuperative power.

In the heat of Summer, frequently the Liver and Spleen do not properly perform their functions; the Uterine and Urinary Organs are inactive, producing weakness of the stomach and intestines and a predisposition to billious derangement.

DR. WELLS'

EXTRACT OF JURUBEBA

Is prepared directly from the SOUTH AMERICAN PLANT, and is peculiarly suited to all these difficulties; it will cleanse the VITIATED BLOOD, strengthens the LIFE-GIVING POWERS, and REMOVE ALL OBSTRUCTIONS from IMPAIRED ENFEEBLED Organs.

It should be freely taken, as Jurubeba is pronounced by medical writers the most efficient PURIFIER, TONIC and DEOBSTRUENT known in the whole range of medicinal plants.

Or Sugar-Coated, Concentrated Root and Herbal Juice, Anti-Billious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness in Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in mouth, Billious attacks, Pains in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair them; their sugar-coating and being enclosed in glass vials preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a **Laxative, Alterative or Purgative** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a bottle.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by return mail from
